SONOMA HIGH TO HAVE STRONG FACULTY

New Teachers Announced. All Have High Credentials.

Sonoma Valley High School will have a strong faculty for the coming school year. Every teacher will teach only those subjects in which he has been especially trained. All have had succesful experience in other schools and all are thoroughly prepared to teach the subjects assigned to them. Several of the faculty have had experience in the business world as well. Such experience is of great value in a school.

The faculty with training and subjects is as follows:

L. H. Golton, Principal, A. M. Harvard University, United States History, Economics and Social Science, Physical Education.

Miss Florence Rolfe, Vice-Principal, B. L., University of California, Spanish, Latin, Com. English.

Miss Edna Jensen, B. S., University of California, Domestic Science, Domestic Art, Graphic Art, Physical Education.

Miss Anna H. Burt, A. B., University of Chicago, English and Modern History.

Miss Clara M. Calvert, University of Washingnto, Three year's experience in government work, Commercial branches, Stenography, Typing, Bookkeeping, Business Arithmetic.

Miss Bertha Warthorst, B. S., Stanfoord University, Science and Mathematics.

L. L. Stenquist, B. S., Oregon Agricultural College, Manual Training, Blacksmithing, Stock Husbandry, Mschanical Drawing, Athletics.

The school is accredited in Division A to the University of California. Last year, the University Examiner reported the school one of the strongest which he had visited With the regrouping of subjects, which it has been possible to effect, the school should have the best year in its history

All students who will enter for the first time should notify the principal in advance that due provision should be made for them. Also all pupils who cannot come into school unless some means are provided, should notify the principal immediately.

H. E. Tracy has been appointted janitor of the schol.

Frank Burris is planning a hunt for mule-tail deer up in Modoc county.

$64.000 WORTH OF PEARS SHIPPED FROM VINEBURG

Season For Sonoma's Famous Bartletts Came to Close Last Saturday, Although Sebastiani Canning Season is at Height and Sorini Dryer Working Many Hands.

That no little of the wealth of Sonoma Valley and its fame as a fruit section comes from its Bartlett pear crop is shown by the figures on the 1921 season as evidenced by the Vineburg shipment, the last of which went out Saturday and will total 64,000 dollars. Most of the pears were handled and shipped by the Earl Fruit Company. In the Eastern market a carload of Valley of the Moon pears brings about two thousand dollars.

In addition to the green or fresh fruit shipped which was all first grade fruit, is the second grade and culls. These pears are now keeping the cannery and dryers busy. The Sebastiani cannery is packing many cases of Bartletts this year, perfect fruit and a fine flavor.

G. Sorini has a large force of workers engaged in cutting pears for drying and expects to get an excellent figure for the dried fruit.

FIRE BELL IS GIFT FROM MRS. SUSAN WHITING

Mrs. Susan Whiting, one of the early settlers of Woodleaf Park, Boyes Springs, has made a splendid gift of a fire bell to the Boyes Springs and Valley Fire Department. The gift was a complete surprise to Chief Cause and the department for Mrs. Whiting had quietly arranged for the purchase and shipment of the bell and when it arrived it was even then two days before it was unboxed and the generosity of the donor realized. The bell is a magnificent steel bell with clear fine tone and will be hung over the fire house at Boyes. As it resounds throughout the Valley of the Moon, praises of the gentle benefactor will ever be sounded and the firebell will be looked upon as the friend of all the countryside.

The donor is the widow of the late H. C. Whiting, prominent Northwestern Pacific Railroad official who was always interested in the welfare of Sonoma valley. Mrs. Whiting established her country home here many years ago and is beloved by a large circle of friends.

Chief Cause and the department desire to express their pleasure and gratitude at the generous gift from the gracious owner of "Rocky Haven."

CUPID IS BUSY TYING KNOTS IN OUR VALLEY

Three Weddings of Popular Young Folks Occur Past Week and Honey Moons Are Being Spent at Famous California Points of Interest.

Dan Cupid has been exceedingly busy the last ten days in and around Sonoma Valley and at least three weddings have been solemnized as a result of the little matchmaker. The friends of the popular George Stickel of the Standard Oil Company and Miss Hazel White, charming postmistress of Agua Calietne were surprised to hear that they had taken out a license to wed. The ceremony was a quiet one, but upon their return from their honeymon they are to be given a reception by the Odd Fellows and Rebekahs, both being prominent fraternal members. The bride is a blonde of charming manner and winsome personality. She is the daughter of well known residents of Agua Caliente. Mr. Stickel is the son of Mrss. Jessie Stickel, now visiting in Oregon where she is prominently connected. He is brother of Miss Stickel, University graduate and laboratory exert at the Affiliated Colleges in San Francisco.

Upon their return to Sonoma Mr. Stickel and bride will reside in one of the artistic Sebastiani bungalows.

Paul Rambo who saw service in France and was recently honorably discharged from the regular army after being stationed at the Presidio of San Francisco, was married at Sacramento last week to Miss Bertha Dakan whom he met here at the home of his cousin, Miss Hallie Rambo.

Mr. Rambo's bride is a sisterinlaw of Jeanette Harris Daken and is a dainty girl with Titian hair and gracious manner. She was employed for a time at the Hotz dry goods store. The romance which led to this wedding began almost the first day the soldier met the young lady whom he won is his bride. Fate seemed to arrange things for Mr. Rambo for a chance meeting on the train coming from the East with a Sonoma resident told him of the relatives here whom he later came to see. It was then he met Miss Daken and lost his heart to the dainty Miss of the Valley of the Moon. The young people are to reside in Fresno. Rambo's folks are residents of Nebraska.

The wedding while rather impromptu, was never-the-less romantic and delightfully free of all the fuss and expense usually attendant upon weddings. The bride "dressed up in her gingham gown", was quite as lovely as though she had worn real lace or georgette. It appears that Miss Dakan was going to see her fiance off for the East and on their way to the depot, a jeweler's window with wedding rings inspired them to purchase one, get a marriage license, a minister and forget about the soldier boy's ticket East. These lovers therefore followed out their romantic impulse and 'ere long all preliminaries had been arranged and Rev. Harrison of the Presbyterian church, Sacramento, had tied one of the neatest knots in his experience. The newlyweds then iourneyed to Mrs. Rambo's brother's home and told of their great happines

A beautiful wedding was solemnized under the blue skies at Glen Ellen Sunday at one o'clock when Miss Harriet Brand became the bride of Arthur Douglas Macfie of Honolulu. It was an al fresco affair, the arbor of the Brand home having been made more festive with ferns and pink amaryllis. Here Rev. Mr. Short of Santa Rosa pronounced the solemn words which united the popular school teacher and the lucky young man who had won her for his bride. Robert Macfie, a brother of the groom from the Islands acted as best man. The maids of honor in pastel shades of organdie were Mabel Lewelling of St. Helena, Margaret Butts of Honolulu, Ruth Todd of Santa Rosa, Ada Weiman of San Jose, Martha Brand was flower girl and Leoma Singmaster, ring-bearer.

The bride was a picture of radiant happiness and charm in her white georgette gown, lovely veil and orange blossoms.

After the ceremony and a dainty repast, the young couple left for a wedding tour to the Yosemite and Lake Tahoe.

They sail for the Islands on the 31st and will make their home there, where the groom is in the automobile business. Many handsome wedding gifts wer received by Mr. and Mrs. Macfie.

BLOSS KEECHLERS AT TAHOE

Mr.and Mrs. Bloss F. Keechler and a party of friends including Mrs. Keechler's mother, Mrs. F. Rankin, Jessie Rankin and Miss N. Lawson of Santa Rosa motored to Lake Tahoe this week and have been enjoying the rugged beauties and climate of the Sierras.

W. Chester and Miss Nellie O'Brien were in town Thursday on business connected with the Sonoma Valley Water, Light & Power Company.

Friends of E. H. Cliff of El Verano will be pleased to learn that he is now able to sit up following his serious illness with pneumonia.

SPEEDWAY ARTISTS BANQUETED AT PANCRAZI'S

Eddie Hearn and Other Celebrities Gather at Glen Ellen After Big Race and Prize Money Was Paid There

Following the big race at the Speedway last Sunday, the stars of the Cotati meet were banqueted at Julius Pancrazi's hotel at Glen Ellen. The famous racing motorists are lovers of good Italian dinners and so it was arranged that they should come to Sonoma Valley and be dined at the Roma Hotel. Mr. and Mrs. Pancrazi left nothing undone to make the banquet a success and the crowd of racing fans and drivers were treated to a wonderful menu not far from the ranch of the late Jack London which made the dinner even of more interest to the visitors.

Each racer, including the world record breaker, Eddie Hearn, and their mechanics with representatives of the press, gathered around the banquet board. In addition to the big "eats" and the oratory which went with them was the important business of paying the prize money to the victors in the speed contest. The names were all officially signed and the money paid in Sonoma Valley's little "Paris," Glen Ellen, which is now on the map more than ever.

The success of the dinner program arrangements were largely due to Milton Wasserman of Santa Rosa.

Paul Derkham, official starter of the 150 mile classic was master of ceremonies. He started the banquet off right too, telling the history of various meets and their results. Finlaw Geary, chairman of the banquet committee gave a snappy talk, and Jack Prince, builder of the fast track, traced his interest in speed from his bicycle days. Eddie Hearn, $5000 hero of the occasion won new laurels through his gift as a speaker.

Glen Ellen was proud to have been chosen as the gathering place of this distinguished crowd of sports and the latch string will always be out for the boys to come again.

Mis Stella McGill of El Verano went down to Antioch last Sunday to spend a few days with her sister, Mrs John Love.

Mrs. J. H. Weise and Mrs. Shirley Weise of Glen Ellen gave a delightful afternoon one day last week at which friends and neighbors were guests.

CAPTAIN BOSCH DROPPED DEAD

Sudden Death of Prominent Resident Of Lower Valley Shock to Many Friends of Family.

Captain Peter Bosch who has resided on a ranch at Vineburg several years was stricken with heart failure Thursday while at work in his orchard and before medical help could be summoned, passed away.

Captain Bosch was a genial and hearty man and his unexpected passing was a shock to many friends, besides the large and devoted family which is left to mourn him. A widow and several sons and daughters survive the good father. A son of deceased died during the late world war and it was only lately that the remains were brought back from France Several sons were in the service of Uncle Sam and Capt. Bosch was rightfully proud of them. Two daughters, Mrs. Morris Levy and Mrs. May Rochat were summoned home by the untimely death of their father.

Captain Bosch was a native of Germany, aged 72 years and 5 months. He had resided in California for fifty years. The funeral took place Friday at 1 o'clock from Masonic Temple and was largely attended.

LATEST RULING IN THE WATER MERGER APPLICATION

On June 15th the application of the Sonoma Valley Water, Light & Power Company asking for authority from the Railroad Commission to finance the proposed Sonoma Valley water merger was acted upon, the order being supplementary to one previously issued. The first order denied the application to issue $260,000 worth of bonds unless $100,000 in cash from present or future stockholders was put up and proper application to issue stock filed with the commission.

The latest requirements by the commission of W. Chester et al is as follows;

1 W. Chester to return to the treasury of Sonoma Valley Water, Light & Power Company at least $50,000 of common stock.

2 Articles of Incorporation of Sonoma Valley Water, Light & Power Company to be amended so as to provide for an issue of $50,000 of preferred stock, bearing dividends at not to exceed 8% per annum; the preferred stock to have preference both as to earnings and assets.

3 Sonoma Valley Water, Light & Power Company to furnish the Commission with a written agreement from a bank or reputable bond dealer covering the sale and purchase of $325,000 of 20 year bonds bearing interest at not exceeding 8% per annum, such agreement to be drawn up subject to the issue of the bonds being authorized by the Railroad Commission.

4 Sonoma Valley Water, Light & Power Company to agree that the proceeds from the sale of non-operative property will be used to retire the bonds.

5 Application Number 6637 to be amended so as to cover the issue of the $50,000 of preferred stock and $325,000 of bonds, instead of $260,000 of bonds.

LOST MONEY FOUND BUT DISAPPEARS AGAIN

Child Says He Found Wallet of Visitor at Agua Caliente and Gave it to Man Who Denies Child's Story. Arrest Follows

D. Strachan of Agua Caliente was placed under arrest this week following a search for a lost wallet containing over a hundred dollars which children are said to have found and turned over to him but whose story he denied when questioned by the Deputy Sheriff

The owner of the money was a summer visitor named Lombardi. He evidently got careless with his bankroll and dropped his wallet containin money and railroad tickets on the road, for it was found by Charley Garoni, son of Joe Garoni, who says one of the Miller children took it away from him.

The Miller youngster says he handed it to "Scotty" Strachan who denies ever having seen the purse but will be given a hearing before Judge Small and a chance to vindicate himself of any connection with Lombardi's loss.

C. VALENTE PASSED AWAY IN SAN FRANCISGO

Died In Metropolis Where He Went For Treatment.

Cipriano Valente who resided on Spain street many years and has recently been employed by B. Mori at his fruit and vegetable store, passed away in San Francisco last week, where he had gone for medical treatment. The funeral took place in that city. He was a brother of the late Dominico Valente.

Mr. Valente was a kind friend and neighbor and will be greatly missed by the comunity. He was a devout Catholic and was laid to rest with all the rites of the church in the presence of sorrowing relatives and friends.

A widow and grown children survive him in addition to nieces and nephews among the latter being Chief Jep Valente of the Sonoma Fire Department.

The deceased was 61 years of age and a native of Italy.

DONATIONS TO BOYES AND SONOMA VALLEY FIRE DEPT. MAY BE PRODUCE

If you want to give produce or live stock to be sold for the benefit of the Boyes Springs and Valley Fire Department at the Boyes Springs theatre August 25th, send word to Chief Cause. Cash donations and donations which can be turned into cash will be appreciated. Remember we are all to put our shoulders to the wheel and lift the debt from the "Valley Angel' next Thursday night.

Chief Cause reports donations from the outskirts of the valley a little slow in coming in. The fire engine is never slow coming out, so the Chief says, "remember we may all need the Valley Angel."

Los Banos is getting splendid results from it's Waterous fire engine. The apparatus which is like the one purchased by Sonoma, saved a restaurant and half a block in that city recently. The Los Banos 'Enterprise' says "the fire engine paid for itself many times over."

AMERICA SAFE WITH HARDING

AT HELM SAYS NORTHCLIFFE.

IT SHOULD BE REASSURNG and a matter of pride to every American to know Viscount Northcliff's splendid impression of President Harding. The conservative opinions ascribed to the English have been supplanted in this instance by enthusiastic commendation of America's choice of President. The London journalist waxes enthusiastic over the "big-limbed, well built, straightforward son of Ohio" and there is a ring to the critic's enthusiasm which proves that it is not journalistic or fraternal ethics which prompts the opinion given to the public and published both here and abroad.

It will interest the feminine voters to hear of Harding that "he is probably the most physically attractive man in the long list of Presidential residents of the White House," and it will reassure all followers of the convention coup de 'etat last fall to read "I think he is very definitely his own master, and not "the man of any section or coterie"—"a man who will quietly make up his mind without undue regard to any influences and that when his mind is made up, it will be found to be somewhere near a common sense of gravity."

Best of all, Northcliffe gives it as his opinion that President Harding is a sound leader and that the destinies of the Anferica npeople and the influence which their action must have upon the welfare of the world could not be in safer hands.

We believe that the United States had faith in the Ohio publisher from the time he set his first message down and spared the readers of it extravagant promise and bombast. He has been busy since then surrounding himself with the brainiest specialists of statecraft obtainable, and getting down to business on big problems which are fast being worked out. This beats highflown phrases and unfillable promises any time.

It is well that Viscount Nothcliffe has met the President but we'll tell our little world too that he is just all right.

OIL LEASES AND MORTGAGES.

PREPARING THE WAY for Sonoma Valley's roseate future of oil discovery is no easy matter for the local men who intend to finance the prospecting for the oil and are now trying to arrange the preliminaries in a business like manner. There is the difficulty of getting all the leases signed up and this lack of proper cooperation seriously handicaps the promoters in the development progam which they have launched.

In order to get anyone to probe in and unlock the treasure box underlying Sonoma Valley lands which geologists declare rich in oil, the men who have interested themselves in bringing to light a richness which may exist must have help. They must not be suspected or treated like wild cat schemer nor should they be treated with indifference. Much of the opposition felt toward signing oil leases (if they are the right kind) is akin to the old prejudice once felt against mortgages. The melodrama and novel of a generation ago fairly bristled with villians who foreclosed mortgages and got innocent victims of this method of raising money into their pitiless nets. Plays like "Shore Acres" sounded sinister warning, and people were so imbued with fictional fear that it took many a day for the mortgage to justify itself in the minds of the masses, though today it has taken its place as one of the most legitimate of business methods and is a necessary and popular procedure in successful transactions of various characters. Prejudice against signing an oil lease where so much of community future and prosperity is at stake and where the personnal of those behind the project is favorably known, should be banished and discarded with the out of date prejudice against mortgages.

Even if not concerned about your own prosperity, folks, and contented to die in blissful ignorance of the oil waiting to gush forth from your fields, you should be public spirited and progressive enough to give Sonoma Valley it's chance. The golden future may be a dream. Geologists have been mistaken. The oil may all be on their tongues and our own, but let us at least exploit this county and permit it to come into its own with Coalinga, Bakersfield, Huntington Beach and other proven districts if oil bearing strata has been the gift to us of the Creator.

SOME ERSTWHILE believers in Hiram Johnson will get an awful shock to read that their little tin god is decribed as "the tin amplifier of the voice of the mass" in the literary sensation "The Mirrors of Washington" recently published. "Tin" hardly does the Senator justice, brass would be better, much better.

Sonoma Business Man Arrives at Boyhood Home and Surprised Folks

Picton, Ont.,

INDEX- TRIBUNE:

I have put off for some time the part of our trip which ought to have been sent before to you. Our time has been so much taken up with seeing and going here and there, I could not get to it. I will here try to give the description of the latter part of our journey. Just before leaving the prairie provinces, we passed some fine country in the Manitobas, which is settled longer and more thickly than the others and has some fine towns and cities which would be a credit to any country. The City of Brandon, an up-to-date place with all the modern improvements of every kind, paved streets, street railways, etc. with a good rich country surrounding the city.

Next we came to a large and fine town called Portago Loprairie, a beautiful place and the very best of soil around it, a very prosperous place and country. They say that one time in early years the Indians used to have to take boats from one river to another therefor it got the name Portage. The writer spent some time at this place when starting out in life and worked for an old firm, J. H. Ashdem, wholesale and retail hardware company. J. H. Ashdem is one of the big business men of western Canada, a self made man and has today stores in all the large centers.

We next arrived at the large and beautiful city of Winnipeg, an uptodate place, the gateway to prairies and western Canada. It has all the very best that can be had in the way of modern improvements. But space will not allow me to go into detail except to say that like all other places along the way, it has large elevators for storage of the grain which comes pouring in from all points of the Prairie provinces. We leave Winnipeg for Ft. Williams and Port Arthur, head of Lake Superior. Passed through lots of wooded and broken country. Lots of timber for generattions to come. We pass on the way one of the largest flour mills of the west, called the Keenatin Milling Co., situated near the Lake of the Woods, a beautiful situation, fine boating and fishing and close to the town of Rat Portage. The country in this locality is nearly all timber. We are now getting near the Head of Lakes and are expecting a chance to get a lake steamer, which we hoped to be there and to take pasage on. But in some way was delayed and we found we would have to wait three days. This would be too long a wait, so we with many others were disappointed and took the train for Toronto. All along this country is very broken. Timber mining and plenty of pulp wood, the latter cut and in rivers on the way to the mills. Large nickel mines near railroad and some of the largest copper mines around Lake Superior are being worked. Also, asbestos has been found in these parts of Canada and in other provinces of the Dominion we passed on the way. The Sault St. Marie Canal, where the steamers pass from the Lake Superior to Green Bay, the Americans have locks and also the Canadians. While all this country from Pt. Arthur is picturesque, it is not a very fertile country. We after a little while leave northern Ontario and as we enter into western Ontario, the scene changes and we enter into a farming district and the nearer we get to the city of Toronto, all the towns look good and prosperous. The last day or two in the train, the hot wave struck us, and when we arrived at Toronto we found the place just wilted, people lying out doors day and night, trying to get a breath of fresh air and this night on the lake shore, for that is where Toronto is and has a population of 500,000. It is a beautiful and clean city. They call it the city of the churches and it surely has many of them and large educational institutions and universities.

Had to lay over in Toronto a short time and took the train for the old home. We arrived in a short time. I tried to locate it off the train in passing, but time had changed things so much in the many years I could not and pretty soon the whistle blew and our destination was reached. I got to a phone and called up a shop mate of years ago and said "Will I want your auto to take me out home," and the answer came "Hello J. J., will be there in a few minutes" and we were at the old home very soon, so changed and improved, I hardly knew it. When we got there not one of my people knew me and went out to see my brother and sister, who who happened to be in the strawberry patch. I was buying the crop and shipping to California and they never knew who I was until I was making special ways of shipping and to ship to. I surely had some fun in many ways since I got here, for no one knew me. I have been living in a strawberry and raspberry field ever since I came and they are just done now with the crop. I move to green corn, tomatoes, and mush melons, as my people are doing all kinds of truck farming.

Picton is a town of about 6000, beautifuly situated on the Bay of Quintrea and county seat of Prince Edward county, surrounded almost by Lake Ontario. It has many picnic places and resorts where people visit in summer months. There are some beautiful homes here and the country is fertile. There are quite a few factories and so many improvements, and built up so much, I hardly know the place.

FASTEST SPEEDWAY IN THE WORLD HAS SONOMA CO.

Driving a beautiful race from the start to the finish, Eddie Hearne, "veteran of drivers," shattered all world speed records from 1 to 150 miles and won first place in the opening American Automobile Association race on the North Bay Speedway at Cotati Sunday afternoon Roscoe Sarles, piloting a Duesenberg, finished second, a lap behind Hearne; Tommy Milton, in a Durant Special, finished third, three laps behind the winner; Eddie Miller, driving a Duesenberg straight Eight, won fourth, and Alton Soules, piloting a Fronttenac, —won fifth Joe Thomas, in a Duesenberg, and Tom Alley, in a Frontenac, finished sixth and seventh.

Eddie Hearne established a new world record for 150 miles, driving the course in 1 hour, 21 minutes, 19.2 seconds. His best lap was turned in 39 flat, at a speed of 115 and a fraction miles per hour. He established a new record for 100 miles, driving the distance in 54 minutes and 5 4-5 seconds. He also broke all intervening records. His best mile was turned in 31.11 seconds.

TOMORROW IS THE REDMEN'S SEVENTH ANNUAL PICNIC

Tomorrow under the trees at Schuman's Park, Buena Vista, the Sonoma Lodge of Redmen and the Daughters of Pocahontas (Bear Flag Lodge) will gather for their seventh annual picnic. Good music, many interesting games and contests, dancing and feasting will be enjoyed by the lodge members and their friends. Many out of town members will attend the picnic as the Redmen have a reputation for genial hospitality, and many successful affairs have been given both at Schuman's and at Oak Grove by the order.

President Edmund Bacher has had good committees at work arranging for tomorrow's picnic. The ladies, too, headed by Mrs. Rosa Randolph have been doing their part to make the affair a success.

FACES SUIT OVER WINE POURED OUT

LAKEPORT, Aug. 16.—Sheriff B. F. Shaul of Lake county faces a suit for $6,300 as the result of pouring out 600 gallons of wine on the Deiner ranch last December.

The suit is brought by Mrs. Marie Deiner. Her husband, who was arrested on a charge of selling wine some time ago received a fine of $3350.

Mrs. G. H. Hotz and Harold Hotz came up from San Francisco Monday evening. Harold Hotz resides at Sacramento and is here on his vacation.

Wm. F. Clewe attended tthe Furniture Dealers' Convention in San Francisco last week and enjoyed the fine banquet given for them at the Palace Hotel Friday night, the 12th.

Mrs. Ralph Hotz and son Preston are to spend a week or two at Pacific Grove.

Felice Rovai and B. Mori were among Sonoma business men in San Francisco last Monday.

VINEBURG NEWS

Mrs. Merani and Mrs. Abner and daughter, Miss Galene, all of Oakland, have been guests at the John Batto residepce the past week.

Vineburg will be well represented at the Grand Annual Picnic at Schumann's Resort at Buena Vista next Sunday, Aug. 21. Yes! we all will be there.

Frederick Batto Jr. one of our coming young business men was a visitor to the metropolis the week end where he combined business with pleasure.

Mrs. A. F. Hopke visited the metropolis on Wednesday last.

Mrs. Grove Rubke and daughters, Thelma and Margaret, motored to Napa Thursday and were guests of friends.

Mrs. Bochm, Mrs. Merani Jr. and Mr. and Mrs. Cavanaugh and children of Oakland were week end guests of Mr. and Mrs. Louis Martin.

The Earl Fruit Co. completed its pack on Thursday and the season although short, was sure a busy one and under the able management of Wm. E. Helberg and Roy Hyatt, the company shipped 16,600 boxes of choice Bartlett Pears and one straight car of plums from this section of the Valley of the Moon to the East.

Mr. and Mrs. R. Mistron, well known in Sonoma Valley as summer visitors, met with an auto accident last Sunday on their way from Calistoga to their home in Lark Mead which cost Mrs. Mistron her life when the car overturned three times, killing the unfortunate lady. Mr. Mastron was taken to Calistoga badly injured and not expected to live. Louis Martin received news on Wednesday that the patient was out of danger and improving nicely which is good news to his many friends.

Miss Iris Estmentt of Oakland has been the week guest of Mr. and Mrs. Frank Allen and family, Hyde Tract.

The Angel of Death hovered over peaceful Vineburg on last Wednesday and called to his heavenly reward, our highly esteemed and progressive citizen, Captain Peter Bosch who was at work in his orchard. All this vicinity mourns the loss of an affectionate father, a good citizen and a true friend.

SONOMA AND SANTA RCSA TO GET BETTER SERVICE

An important change of time and one which has greatly been desired will be inaugurated by the Southern Pacific on Sunday August 28th.

There will be an afternoon train leaving San Francisco for Santa Rosa, El Verano and way points at 4.40 p. m. and leaving Santa Rosa for San Francisco at 6:45 a. m. daily.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

IMPORTANT REALTY TRANSFER REPORTED

It is reported that B. Cabanot, pioneer property owner and resort keeper of Boyes Springs has sold out to E. Peters of San Francisco. Mr. Cabanot was one of the first to show his faith in Boyes Springs real estate. He recently bought and improved a business block near the N. W. P. station which is now tenanted by store keepers. Cabanot is an enterprising and progressive man.

Mr. Peters is a well to do automobile man of the metropolis and will be another good booster for Boyes.

Merchants Victimized by Bad Check Passer

Three Sonoma merchants believe they were victimized by a bad check passer recently, for checks bearing the name A. Santos, and drawn on the Napa branch of the Bank of Italy have been returned as worthless. The checks were all for $25 and were taken in trade by Clewe, Boccoli and Kaplan who gave the passer his change in each instance.

Carl Bundschu, prominent Santa Rosa farmer, passed through town Wednesday on a hunting trip.

PETALUMA ALL READY FOR EGG DAY AND RODEO

Promising the finest entertainment in the way of parade features and other attractions and with a rodeo rivaling any ever given in the West, Petaluma is all prepared for an immense crowd at the Egg Day celebration which begins today. The rodeo today and tomorrow (Sunday) will go down in history says Jack Hart, manager of the big show. You may purchase tickets at this office, the Elite Bar, or the Plaza Restaurant

Miss Tamara Lawb, formerly of Sonoma but now of San Francisco has accepted a two week's engagement at the California Theatre where she will appear with Yarotzky and Petroff, two Russian dancers who have a Russian dancing academy in San Francisco. The young artist will give the Gipsy dance, and after her theatrical engagement ends, will teach in the academy.

RETURNED FROM YOSEMITE

Henry Weber Jr. returned home Friday of last week from the Yosemite, having spent ten days at Camp Curry. He renewed acquaintance with Mrs. Foster Curry, formerly Miss Mary Cherry, a Sonoma girl. Mrs. Curry sent greetings to all her old Sonoma friends.

Weber visited Inspiration Point and all the marvelous scenic places of the valley, hiking despite the intense heat to all points of interest and enjoying the wonderful evenings in camp. The Indian rodeo lured many during the first week in August and the Sonoma visitor declares the show put on by the Indians in Yosemite was worth going miles to see. The riding of little children and horsemanship of old squaws was a wonder, says Weber.

There were about 400 guests at Camp Curry and many splendid entertainment features are arranged each evening by the management.

Weber made the trip without mishap to the Valley in his Ford Sedan but found the roads very rough and some grades exceedingly steep.

P. DeRutte, the young man accused of stealing his own suit of clothes, was held to answer to a burglary charge in $1000 bail after a hearing before Judge Small last Saturday.

SCHOOL TEACHERS RETURN ENCHANTED WITH ALASKA

The party of school teachers who left here last month for a trip to Alaska has arrived home and Miss Edna Cooper describes the journey along the Klondyke trail to Yukon as one never to be forgotten. The Sonoma teachers took in all the famous places of the days of the great gold rush and even panned out a little "dust" for themselves as a souvenir of their trip The snow-clad mountains and glaciers were objects of great interest to the visitors from the Valley of the Moon. They spent 17 days in Alaska and despite rainy weather, enjoyed every moment in the Yukon country. On the return trip they came down on the "City of Seattle" and spent five days at Vancouver, Miss Cooper also visiting her father in Washington and making a delightful trip down the Columbia river.

The travelers arrived home Monday without anything having marred the pleasure of their 5000 mile journey although they came near taking passage on the ill-fated 'Alaska' which was wrecked. Misses Cooper, Arnot, McConoche and Mrs. Clements Sr. made up the party.

Mrs. Phil Leiser returned from a trip to San Francisco last Monday.

The development of Motor Transportation

There have been many contributing factors in the development of motor transportation; the perfecting of the motor car in comfort and dependability; the construction of smooth durable highways; the production of a motor fuel—Red Crown gasoline—which meets every test of power and mileage; and finally, the Standard Oil Service Stations at convenient locations, making Red Crown gasoline readily available to motorists.

Look for Standard Oil Service Stations and for the Red Crown sign at garages, service stations, and other dealers. There you will be able to get good service with Red Crown gasoline.

Correct Lubrication Chart

Engine—24—A. Daily, or every 100 miles, pour fresh Zerolene No. 3 into crankcase though filler pipe until old level gauge on crankcase registers "full." Avoid overfilling. Best results will be obtained if the oil level is maintained between "half full" and "full" marks on the gauge. To get a correct reading of the oil level gauge, the automobile should be approximately level and the engine not running. When engine is running the oil pressure indicator on dash should show pressure which will vary with the speed and temperature of the engine. If no pressure is registered, the indication is lack of oil in crankcase, oil pump not working properly, or some obstruction or break in oil passages. The engine should immediately be stopped and the trouble located and remedied.

At regular intervals, as recommended by the manufacturer, or, in the absence of such instructions, every 750 miles, the oil in the crankcase reservoir should be entirely renewed in the following manner: First, remove drain plug in bottom of crankcase, allowing all old oil to drain. This should preferably be done when engine is warm, as the old oil when heated will drain faster, and less of it will adhere to the inner surfaces of the crankcase. Next, replace drain plug and pour four quarts of Calol Flushing Oil into crankcase through filler pipe. Then start and operate the engine under its own power at a moderate idling speed for from one to two minutes, by which time all oil passages and inner surfaces will have been cleansed by the action of the flushing oil. Again remove drain plug and when certain that crankcase is thoroughly drained, replace plug and refill crankcase reservoir with fresh Zerolene Oil as specified. Approximately six quarts of oil are required. Before refilling with fresh oil the strainer or screen surrounding the oil pump intake should be removed, thoroughly cleaned and replaced. When filling the reservoir through filler pipe, care should be taken that no foreign matter is carried into the engine with the fresh oil.

Electric Generator—1—H. Every 500 miles apply a few drops of Zerolene No. 3 through oilers provided at each end of generator. Avoid surplus of oil at bearings on commutator end of generator.

Electric Starting Motor—7, 8—W. Every 1000 miles apply a few drops of Zerolene No. 3 through oiler provided at commutator end of motor. Avoid surplus of oil at this point. On Light Six, an oiler at rear end of starter gear shaft should receive the same attention. Every 2000 miles starter gear reduction housing should be filled with Zerolene Cup Grease through grease hole provided. Starter clutch on Big Six and Special Six should be oiled with Zerolene No. 3 every 1000 miles.

Steering Gear Housing—26—U. Every 500 miles remove oil filling plug in side of housing and with oil gun fill housing with Zerolene Transmission Lubricant "A".

Clutch (Big Six and Special Six only)—10, 28. If the clutch is slipping because of greasy or gummy condition of the leather, it should be thoroughly flushed with Pearl Oil (kerosene). With the engine running, the clutch pedal should be worked back and forth to allow the kerosene to cut and dislodge this greasy deposit. A small quantity of Auto Leather Clutch Oil should then be applied to the leather. If the clutch is inclined to grab by reason of the leather being hard or dry, apply a little Auto Leather Clutch Oil to the leather. The application of oil to the leather can best be accomplished by blocking the clutch pedal about half-way down. The clutch cone can then be revolved by hand and the oil applied to the leather at several points. Further turning of the clutch cone will distribute the oil evenly over its entire surface.

Every 1000 miles remove plug from clutch cone bearing housing and with grease gun fill interior of housing with Zerolene Cup Grease.

Clutch on Light Six requires no lubrication.

Transmission—30—Y. Every 500 miles remove oil level plug on side of transmission case, and, if no oil runs out, use oil gun to inject fresh Zerolene Transmission Lubricant "A" until it begins to overflow through opening. Then replace plug.

Every 2000 miles remove drain plug from bottom of case and allow all old oil to drain. Then remove cover and wash all gears, shafts and interior of case with Pearl Oil (kerosene). When transmission is clean and thoroughly drained, replace drain plug and fill to correct level with fresh Zerolene Transmission Lubricant "A".

Rear Axle Housing—17—N. Every 500 miles remove oil level plug in rear of housing, and, if no oil runs out, use oil gun to inject Zerolene Transmission Lubricant "A" until it begins to overflow through opening. Then replace plug.

Every 2000 miles remove rear cap or cover on housing and wash gears and bearings with Pearl Oil (kerosene). Wipe out all old oil and kerosene from bottom of housing with clean rags. Do not use waste. Replace cover on housing and fill with fresh lubricant to proper level.

Note: As bearings in both transmission and rear axle are entirely lubricated by splash from revolving gears, hard grease should never be used as a lubricant in either place.

Universal Joints (on Big Six and Special Six only)—32, 35. Every 500 miles remove grease plug in both universal joints between transmission and rear axle and with grease gun fill joints with Zerolene Cup Grease. These joints hold only a small amount of grease, and as they are constantly in action and transmit all driving power from the engine to rear axle, it is important that they be kept well lubricated.

Wheel Bearings—5, 15, 22, 37.—D, R. Every 2000 miles remove both front and rear wheels and wash bearings and hubs thoroughly with Pearl Oil (kerosene). Repack bearings with fresh Zerolene Cup Grease and replace wheels, being careful to get proper adjustment on wheel bearings.

Spring Leaves. Every 500 miles, or whenever springs squeak, clean off all dirt and old oil and apply small quantity of Standard Household Lubricant along the edges of spring leaves. A small brush may be used for this purpose, or the oil applied by means of Standard Household Lubricant Handy Can with spout attached.

Grease Cups. Daily, or every 100 miles, turn down all grease cups two complete turns, refilling cups with fresh Zerolene Cup Grease when empty. Particular attention is directed to grease cups on all steering gear links, 6, 20, 23, 27,—E, P, S, V; clutch shift bearings, 11—I; steering gear shaft bearings, 26—U; distributor shaft, 18—G.

General Lubrication. Daily, or every 100 miles, use squirt can to apply Zerolene No. 5 to all oil cups and small working parts not otherwise lubricated. Parts to be oiled in this manner include all spring bolts, 3, 9, 13, 16, 19, 25, 34, 38—B, F, K, M, O, T, BB, DD; steering knuckle bolts, 4, 21—C, Q; brake shafts, 14, 33, 36—J, L, AA, CC; brake clevis pins; steering wheel, 31—Z; spark and throttle connections; clutch and brake pedal shaft, 12, 29—X; etc.

Schedule of Lubrication

Daily or every 100 miles: Engine; Grease Cups; General Lubrication.

Every 500 miles: Transmission; Rear Axle Housing; Universal Joints; Spring Leaves; Electric Generator; Steering Gear Housing.

Every 750 miles: Drain and Flush Engine Crankcase.

Every 1000 miles: Electric Starting Motor; Clutch Hub Bearing.

Every 2000 miles: Transmission; Rear Axle Housing; Wheel Bearings; Starter Gear Reduction Housing.
